### SKI-DOO HELIUM SERIES CLOTHING

BRP

www.brp.com

The new Ski-Doo Helium Clothing series from BRP is designed with a combination of high-tech materials for active mountain riders.

At the heart of this system is a membrane new to the North American market known as Sympatex, which establishes new levels of breathability, durability, elasticity and is more environmentally-friendly compared to PTFE-membranes.

Helium gear has a breathable membrane with Sympatex that adapts as the rider's effort level increases.

The non-porous membrane is waterproof, windproof and the PTFE-free Sympatex membrane is a copolymer consisting of polyester and polyether—production of which produces no toxic materials—and is 100 percent recyclable.

Helium jackets and pants are offered in two versions, the Helium 50 series featuring a heavier Cordura outer shell with XS through 3XL sizing and the Advanced TEC Helium 30 series using a nylon outer shell and offering tall sizing in addition. Both series are available with black or red jackets.

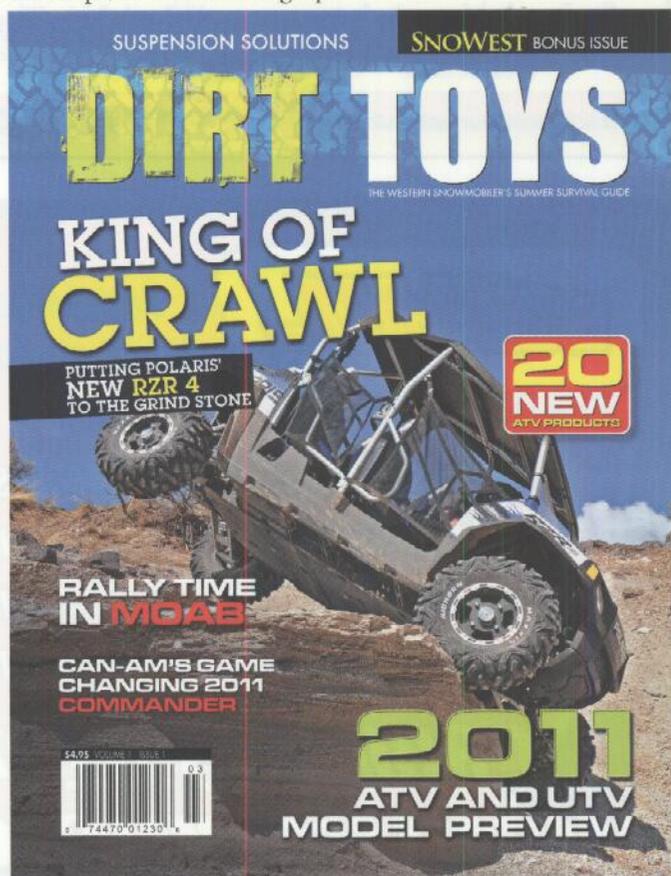

Retail price is \$399.99/\$479.99 Canadian.

### SNOWEST STAFF LAUNCHES DIRT TOYS MAGAZINE

Side-by-sides are one of the hottest segments in the powersports industry and the *SnoWest* staff is right on top of it. The magazine that brings you the most comprehensive coverage of the mountain snowmobile segment, along with project sled builds, special shootouts like our Deep Powder Challenge and features on where to ride in the West, introduces *Dirt Toys Magazine*.

*Dirt Toys* is a fresh look at summer motorsports activities. Consider it a snowmobiler's summer survival guide. We'll cover all the latest new models in both ATV and side-by-side markets, as well as bring you the latest information on new products, aftermarket performance, events, rallies and worthy road trips, as well as riding tips.

### RAM SUCTION MOUNT, POV CAMERA CLAMP

V.I.O.

(888) 579-2267 - www.vio-pov.com

This POV Camera head mounting solution includes the RAM Suction Mount and POV Tri-Pod Mount.

The two complementing pieces are joined by a secure 1/4-20 Tri-Pod thread. The RAM Suction Mount is designed to have an extra strong hold on any smooth, non-porous surface. For best results, mount the suction cup on a glass or non-porous plastic surface.

The unit retails for \$49.95.

And the best part? *Dirt Toys* is a free bonus to *SnoWest* subscribers. That's right, free. Watch for the first consumer issue of *Dirt Toys* to hit the market next spring.

Or if you happen to go to either the Intermountain Snowmobile Show in Salt Lake City, UT, or the Idaho Snowmobile Show in Boise, ID, you can pick up a trial issue of the magazine at the *SnoWest* booth.
