## ⚡ TAKE CONTROL

Lenco Marine is proud to introduce Auto Glide, the most intuitive trim tab control system ever developed. An auto leveling device that utilizes gyroscopes and accelerometers in conjunction with engine and GPS data, Auto Glide takes data readings 25 times per second ensuring that you remain at the most comfortable and efficient running angle. While taking into account the prevalent sea conditions, the Auto Glide will reduce bow rise, get you on plane faster and compensate for pitch and roll. You'll also notice an increase in fuel economy as your boat operates at the most fuel efficient running angle. With Auto Glide's unsurpassed technology you can focus on fishing and stop worrying about and constantly adjusting your trim tabs. **Lenco, [lencoautoglide.com](http://lencoautoglide.com)**

## ⚡ DID YOU SEE THAT?

In the age of HD, quality and clarity mean everything. With a six-element glass lens, HD 1080P CMOS sensor and user friendly controls, the V.I.O. POV camera won't miss a moment. This portable HD system lets you mount the camera in places you never dreamed of and the built-in LED view finder ensures every shot is framed perfectly. A wireless remote further enhances the experience for novice shooters. Shockproof, waterproof and dust proof, this durable recording solution is loaded with numerous in-the-field customizations to improve color, saturation and contrast in less than ideal lighting conditions. Capture the moment and make memories with LathamCams HD camera systems. **LathamCams, [lathamcams.com](http://lathamcams.com)**
